Copy of Mexico.—The Philadelphia

North American publishes the following extract from a letter received on Saturday by a gentleman of that city from a commercial correspondent in the city of Mexico under date of Jan. 12. The writer is favorable to North American progress and supremacy as regards Mexico: "You may judge, from the condition of the country, how business is in this city. The Mexicans are without money—credit there is none—and all the principal families have left the city. No person is safe out of doors after sunset, as there are a number of followers of the army who rob every one they meet in the streets; even the officers of the army have been robbed in the principal streets. As yet General Scott has not been able to put on an efficient police."

Loss Account.—The total coinage of the

United States Mint, last year, as we have lately stated, was \$22,657,662. This was produced from deposits in gold and silver, amounting to \$23,066,603, showing a loss by coinage (or the difference between the cost of foreign coin deposited and American coin reproduced) of about \$415,000, or about 2 1/2 per cent., besides the salaries and cost of the mints and their officers.

A soul conversant with virtue, resembles

a fountain; for it is clear and gentle, and sweet, and communicative, and rich, and harmless, and innocent.

the House who voted against the resolutions of thanks to Generals Scott and Taylor.

DR. J. S. WOOD'S Sarsaparilla Elixir, recom-

WEDNESDAY, FEBRUARY 16, 1848

BY O. F. JACKSON, 37-THAMES ST

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

[Correspondence of the News]

New York, Feb. 10th, 1848.

FRIEND JACKSON:—

To-day being St. Valentine's day, I hope you, like all other birds, will display your wisdom and make choice of a mate. This time-honored festival, judging from appearances will be celebrated with more than usual life and spirit. To-day, the city post office has put on an extra number of letter carriers, the various City Despatch penny posts have also made extensive arrangements for the prompt delivery of these soul-subduing, tear-pumping, love-breathing, gilt edged missives. This "custom of centuries" will be among the last to fall in to disrepute and abandonment. This year it derives additional interest, from being the one in four which gives to ancient maids peculiar privileges.

Considerable excitement has been kicked up in Wall street, by the disappearance of one of the brokers who hang around that region. A Mr. True has taken the "sabbine elope," carrying with some forty thousand dollars in cash and other funds. The absconductor first appeared on 'Change as "one of 'em," about two months since. He hired an office and stuck out his shingle, and at once took rank among the shavers. From his success in trade, and his agreeable manners and gentlemanly deportment, he was considered something of a lion by the bulls and bears. But about the time the Charleston steamer was to sail on Saturday, it was discovered that True had proved false, and had vanished. It is supposed he was green enough to have taken the Charleston boat, if so, thanks to the telegraph, he will find upon his arrival, that preparations have been made to give him a proper reception.

Fears were entertained, that the ice crops would not be sufficient this year to supply the demand, and consequently the lovers of cherry cobbles and ice punches would not be able to indulge in such luxuries to the extent they might wish, but I guess the temperature of the last few days would be as productive of ice as any could desire. The ice merchants have not let the opportunity slip, but have been busily engaged filling their ice houses.

It is astonishing how every place of amusement in the city is crowded nightly. There are about thirty theatres and concerts in the full tide of successful operation regularly every night. Christy's Minstrels, where the admission is only twenty-five cents, have performed every night for six months, and have received \$30,000. You can judge by that, that there must be some money spent in this city nightly for amusements in addition to the above there are, on an average, ten balls of an evening, and all well attended.

The President has sent to the House of Representatives a message, stating explicitly that no propositions of peace had been received from Mexico since September last. This is regarded as an official contradiction of all the rumors of peace that have been afloat for some weeks.

There is to be a grand Mass meeting at the Castle Garden on the 17th of the friends of Henry Clay, when measures will be taken, I suppose, to bring him before the convention as the candidate of the party for next Presidency. Clay stock is high in the city at present. The Whigs entertain a love and respect for that great man that time nor circumstances cannot destroy. His bold and manly appeal from Lexington, has endeared him more than ever, (if possible,) to their hearts; and when we see men of all parties, great men, names that will live in history long after they have passed away, such as Gallatin, Poinsett, Calhoun and Webster, all raising the same views and pointing out the path of honor and duty their fellow countrymen, it warms us not, to despair of our Republic yet.

Yours, C. F. JACKSON

Yesterday was a very fine day, and a few more such would soon dispel the snow.

TEXAN ANNEXATION DIPLOMACY.—Anron Jones, who was President of Texas during the eventful period when annexation was agitated and accomplished, is publishing a series of letters in the Galveston Civilian, in explanation of his agency and that of the Texas authorities in general, in that matter. Like General Houston, he prides himself upon his diplomacy, in bringing about a state of feeling in this country, which precipitated the movement, and claims that it was the adroitness of Texas policy which accomplished the object, which might have been delayed for years, or, nevertheless, utterly denies any intrigue with foreign powers, inconsistent with the independence and dignity of the Texas government, injurious to any interests of the U. S., or really adverse to ultimate annexation.

The letter contains one strong declaration, which throws light upon the effect which the mode of annexation had upon the origin of the war. He is of opinion that the election by Messrs. Tyler and Calhoun of the House resolutions, instead of the Senate amendment, was extremely injudicious, and he expresses his surprise that alternative should have been presented to Texas, instead of the other perhaps, but more peaceful mode proposed, by negotiation. He says that this decision of the Government of the United States produced surprise in that of Texas, from the belief that war would immediately follow; whereas, by the other, annexation could be effected "without war"—but he says Texas had no option but to accept the mode selected by the late President.

GOOD FOR EVIL.—A distinguished writer from Geneva says, of the persecution of Protestants in Canton of Vaud:

This persecution, while it portends only evil to the Vaud, may be productive of good to the neighboring Cantons. The Cantons of the Sonderbund are now open to the Protestant preacher since the expulsion of the Jesuits, and present new fields of labor to those against whom the door has been closed in the old Canton. The Evangelical Society of Geneva waits only an increase of its funds to offer employment in this quarter to the exiled ministers of the Vaud.

USURY.—A petition is in circulation in New York, praying that the Legislature would so alter the law, that the principle sum loaned shall not be forfeited by any excess over seven per cent. which has been paid on it; and that no higher rate than seven per cent, shall be collectable through the Courts.

THE LATE COM. RIDGELEY.—As a mark of respect to the memory of Com. Ridgeley the Secretary of the Navy has given notice that the flags of the navy yards, stations, and vessels of the navy in commissions, be hoisted at half-mast, &c., and that the officers of the navy and marine corps wear crape on the left arm for thirty days.

COLONIZATION IN LIBERIA.—The Secretary of the American Colonization Society says that one hundred and twenty-nine emigrants have already sailed from New Orleans, and the society is pledged to send out 360 during the year. In addition it is expected that at least 100 emigrants will be sent early in the spring from Savannah, Geo.

THE GREAT GEN. PIERCE. recently from Mexico arrived in town Monday evening, on a visit to his brother, Col. Pierce.

THE NUMBER OF VOLUMES SENT THROUGH THE GOVERNMENT POSTOFFICE IN THIS TOWN, AND THOSE ESTABLISHMENTS MORE PARTICULARLY FOR THAT PURPOSE, ON MONDAY, PROBABLY AMOUNTED TO TWO THOUSAND.

THE OFFICERS OF PROTECTION ENGINE COMPANY No. 5, are to give a supper to the members of the company at Horton's on the evening of the 22d.

LA PATRIA, the Spanish paper at New Orleans, states it has a letter from Vera Cruz, stating that Santa Anna was at Orizaba; that he had issued a pronouncement, and called for 20,000 troops. Doubtful.

A gentleman from Boston informs us that the sleighing is first-rate in that city. It only cost *twenty-five dollars an hour* to ride in a magnificent sleigh—that is driving about the city.

The effective regular military force of Great Britain is rated at 140,000 men.

Macready, the tragedian, talks of paying another visit to the United States.

"Is Mexico Conquered?"—The Boston Traveler of Monday evening, says:—"An extensive manufacturer, of this region, has lately received a letter from his son, a resident of Mexico for a number of years past, and who, from his business relations with the inhabitants, has unusual means of knowing the general feelings of the Mexicans in this particular. This letter states that Mexico is far from being conquered; and that nine large cities have not yet been approached by the American armies. And further, the writer thinks it will be impossible to negotiate a treaty in which the mass of the Mexican nation would coincide, that does not contain a proviso for the immediate withdrawal of the American armies to certain lines acceptable to all parties."

DEMARA.—A letter from Demara, dated January 11th, describes the financial condition of that Province as critical in the extreme. Estates are, one after another being abandoned or passing from the hands of their proprietors, at execution sale, for a few hundred dollars. Merchant after merchant is failing, and particularly those immediately connected with the Colony. The banks have ceased to discount drafts, even with bill of lading attached, and many planters have, in consequence, been unable to procure money to pay wages, and even the more improvident of the working classes are beginning, for the first time, to feel the limitation of credit.

It is estimated officially that during the year and four months between June 23, 1846, and November 5, 1847, Great Britain had to import breadstuffs to the enormous amount of thirty-three millions and a half of pounds sterling—say one hundred and sixty-five millions of dollars.

The Cincinnati Commercial, of Friday last, utters the following vegetable prediction:—"In the course of three weeks our markets will be supplied with young onions, radishes, lettuce, and other vegetables, due in April."

PASS HIM ROOMS.—The Rev. Mr. Kendall, of Verona, N. Y., where he has a salary of \$400, has lately received a call from a church in the city of New York, with a salary of \$1500, and although very earnestly pressed to accept the city pulpit, has declined absolutely. Such a man is worthy of the cause he preaches.

Mlle Emma V., a female Aeronaut, has made several successful balloon ascensions at New Orleans lately. Her last ascension however did not end very agreeably, as she came down plump into the river where she got a most thorough ducking.

Mechanics in Kentucky.—The Kentucky Legislature has refused to admit a colored mechanic to move into that State from Virginia. The reasons assigned were various—but among them, and as chief were these, that they wanted more white mechanics, and that they should never have them until labor was made reputable.

Bachelors.—A bill has been introduced into the New York Legislature, to levy an annual tax of \$7 on every bachelor between the ages of 27 and 56. The following is this singular provision:

"Sec. 3. Every unmarried white male unconvicted of crime, of good health and fair physical proportions, and who is between the ages of 27 and 56 years, shall be deemed an old bachelor."

Widowers, of over two years standing, come under its provisions also. Right, all round.

POPULATION OF BUFFALO.—A census has just been taken in Buffalo, which shows that there is now in that city a population of 40,522. Of this number, only 711 are colored. The increase within the last year has been almost 10,000.

In Ireland the government agents were actively engaged in disarming the peasantry. A large body of police, whose movements are kept secret, generally meet at a given place at midnight, spread themselves over a given district, and at early morn commence the search for fire arms in the huts and dwellings in the district.

The New Jersey Legislature has passed resolutions in favor of Mr. Whitney's Oregon Railroad project.

It looks bad to see a man borrowing his neighbor's newspaper because he is too stingy to take one himself.

Chloroform has been successfully used in England in a case of lock jaw.

The Glasgow Mail of the 12th inst., says the new steamer America (designed for the Cunard line,) having received her engines, left Napier's wharf the day previous, and the Niagara immediately took her place. The America has spacious accommodations, and is beautifully fitted up.

Montreal is the capital of Canada, a city with 50,000 inhabitants, and surrounded by a district containing, probably, over 200,000. The following extract from the Montreal Herald of the 22d ult, plainly indicates the condition of that population:

"Out of the eighteen Grand Jurors for the District of Montreal—the District which surrounds the capital of Canada—Ten men one of whom seems to be Irish, and the others French Canadians, can only make their mark. If this does not show the necessity for providing instruction, and for compelling the unwilling to provide, if need be, we know no means of forcing conviction. We can think of nothing more disgraceful to the civilization that we boast of—though certainly with very little reason—than this gross ignorance among a set of men chosen on account of their superiority of station, from the Capitol District. We could perhaps, scarcely expect from such a Jury much attention to the most valuable restraints against crime—the knowledge and the habit of reading and writing."

NIAGARA SUSPENSION BRIDGE.—The process of hanging a cable across the gorge where the "International Bridge" is to be suspended, was, as we learn from the Lockport Courier, accomplished in the following manner:—A twine was first sent across the chasm attached to a kite. This done the process of drawing over cords of increased size and strength, was an easy and simple task."

A MONUMENT TO WM. PENN.—The citizens of Reading, Pa., are about to erect a monument, with a statue to Wm. Penn.—The materials are to be of native production, namely, Berks county iron and Sandstone.

"My Eyes."—The following we cut from the Albany Knickerbocker:—A female member of Dr. S's church having safely passed through her nineteenth accouchment her husband sent the following note to the Rev. Dr., to be read before the congregation:—

"Mrs. A. having been safely delivered of her nineteenth child, she, with her husband would return hearty and unfeigned thanks to Almighty God, for this great favor, and humbly ask for a continuance of his blessings."

DIED.

In this town, yesterday morning, Mr. Holmes Weaver aged 78 years.

DEMOCRATIC MEETING.

The Democratic Electors of the town of Newport are requested to meet at Franklin Hall, on Saturday evening at 7 o'clock, for the purpose of choosing Delegates to attend the Democratic State Convention to be held in Providence on the 22d inst. and to transact any other business that may come before the meeting. It is not often that we find amongst the Medical Faculty sufficient candor to accord any merit whatever to "Patent Medicines" as it conveys with their interest so to do; but below we give an exception.

Opinion of a Regular Physician.

Exeter, Me. Sept. 30, 1845.

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past and many bottles, to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. Boyden, Physician at Exeter Corner.
None genuine, unless signed E. BUTTS on the wrapper.

CAUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Brown's Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best there is now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very pure extract of the best portions of the same, prepared by a chemist, in a new apparatus, and is especially for the purpose, and used by no other person in this country. This apparatus ensures the whole medicinal qualities of this most valuable root.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA, is the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

The Lady's Faith in Radway's Soap. I knew my face was Tanned and Freckled, With Pimples, and with blotches speckled. Sunburn and other annoying spots, With Scurfy, Morpew and Salt Rheum, Upon my cuticle assumed. To reign with full authority,— But, ah! my friends, I'll cure them soon, With a soap of a superior quality. Radway's Chinese Medicinal— Is the name of this precious Soap: It really cures all her ills at once— Eider Pimples, blotches, Tan or Spots. The lady said she spoke the truth, She found the Soap the friend of youth, And beauty now as then its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or blotches, Pus-ules or Tan, On the neck the nose, the face or hands, Or if perchance upon your arms— And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medicated Soap.

A secret which baffles the ingenuity of all who have attempted to analyze its properties. *Radway's Chinese Medicated Soap.* The extraordinary effects of this delicious emollient is truly astonishing, for no sooner is Radway's Soap applied to the surface than tan, sunburn, pimples, blotches, tetter and other excrescences speedily disappear. It softens, soothes, heals and sweetens the skin, and imparts beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small, at 2 Courland st. N. Y. R. J. TAYLOR, Agent.

[Extract of a letter from Dr. Williams of V.] Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq., of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

For sale by R. J. TAYLOR.
Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of SEAGRAM COLORED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. C. HAZARD, No. 40 Thames-st, Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Albany, Triverton Bridge; Arnold Smith, Triverton Four Corners; H. E. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 195, Tremont-st., Boston.

SHOES, BOOTS AND GAITERS.
 A very Extensive Supply.
 IN offering this stock of goods to the inhabitants of Newport and vicinity, I am aware that the satisfaction of making a good bargain is incomplete—it is not realized when the purchaser does not know that he is receiving for his money the very best return. To give, in this case, full assurance, I will say, that whilst the above goods are too valuable to allow of being purchased at low prices than other goods in market, I will notwithstanding, sell them at such prices as cannot fail to secure a continuance of that custom which I already have so largely and so liberally received.

Phalon's Chemical Hair Invigorator.
 A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.
 Naught with beauty can compare,
 With soft, glossy locks of hair;
 It not endowed with such by nature,
 See 1 Phalon's Hair Invigorator.
 The subscriber having devoted a considerable portion of his time for twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.
 The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.
 The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, curiously frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and lux

Hyer's Pills.

The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.—This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, usually upon its own merits, by recommendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessarily compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand more assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of any animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxurious state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the flames from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

READER! READER!

If you are afflicted with Bronchitis, Asthma, Catarrh of the Lungs, or common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try

DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

Mr. Hiram Amers, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 103 Eldridge-st.
Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange county, April 19th, 1846.

Dr. EMANUEL.

Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear Sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear Sir, with great sincerity,
ISAAC J. BREID.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

MOT HER'S RELIEF.

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all terrible and nervous affection. It smooths and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c. causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for BARTON'S Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fair simile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders
